

Report of ESSR Outreach MSK US Course
Kaunas, Lithuania
12-13 April 2019

The ESSR Outreach MSK US Course was aimed at radiologists, ultrasonographers and other specialists with interest in MSK ultrasound. Basic lectures and interactive hands-on sessions combined with the live demonstrations was highlighted ultrasound anatomy and common pathology of the joints. International ESSR faculty shared their experience about the scanning techniques and ultrasound diagnostic possibilities.

The ESSR Outreach MSK US Course was held in the second biggest town of Lithuania – Kaunas. Lithuania is uniquely country – green and flat land in the north of Europe, ashore the Baltic Sea. Lithuania is one of three Baltic countries. The capital of Lithuania – Vilnius, and second largest city Kaunas – has always been a multinational, multilingual, and multicultural European cities. Kaunas is situated in the middle of the country, in a wonderful place at the confluence of Neris and Nemunas rivers.

The meeting venue was Europa Royale Kaunas hotel, which is located in the center of the city — located close to Laisves Avenue which is loved by the city residents and guests, near the main cultural, commercial and financial facilities.
