Regarding: Application for ESSR Councillor 2021-2023

Heerlen, March 2021

Dear members of the ESSR Executive Committee,

In 2008, I attended my first ESSR Annual Meeting in Galway as a resident with a poster presentation and joined the ESSR as a member. I have participated in every ESSR Annual Meeting since as researcher, as moderator, as faculty member, as examiner and even as quiz panellist. When the ESSR 2018 was held in Amsterdam I contributed as member of the local organizing committee and the scientific committee of ESSR 2018.

In 2010, I received the diploma of the European Society of Musculoskeletal Radiology, and in 2011 professor Vanhoenacker invited me to join the ESSR Educational Committee. After my illustrious predecessors i.e. professor Robinson and professor Martinoli, I was invited by the ExCom to serve as the chair of the ESSR Educational Committee (2018-2021). Currently, I am a member of three subcommittees of the ESSR (i.e. Ultrasound, Sports and Intervention). I was appointed group leader for 'Intra-articular procedures around the elbow' and 'Intra-articular procedures around the ankle and foot' for the ESSR interventional guidelines project led by professor Sconfienza. I am one of the co-directors of the ESSR webinar program since 2018 on behalf of the ESSR Education Committee. On behalf of the ESSR, I served as a member of the Evaluation Committee of the ESOR Exchange Programme for Musculoskeletal Radiology Fellowships in 2018, 2019, and 2020. And I am currently the ESSR Educational Committee Delegate representing the ESSR (2020-2022).

I have been very passionate about education. To name a few tasks over the years: participation in the European Board of Radiology from the start by providing MSK European Diploma in Radiology (EDiR) exam questions (2011-2017). Currently, still a member of the Standards Committee of the EDiR (since 2015) and member of the Policy Committee of the Accreditation Council of Imaging (2019-2022). I was a member of the European Training Assessment Programme working group and scientific committee (2017-2019). Also, was a contributor to the International Day of Radiology 2019 book (Title: Bringing MSK knowledge and skills to the point of care. Subtitle: MSK Radiology Education - inspiring the young as well as experienced learners. Authors: M Adriaensen, C Nyhsen, C Martinoli). Other memberships include, founding member of the Editorial Advisory Board of Aunt Minnie Europe, a member of the Harvard Club of the Netherlands, of the Netherlands Fulbright Alumni Association, of the ESOR alumni club, and of the International Skeletal Society.

I am very grateful for the opportunities the ESSR, the ESSR-members and the ESSR-office offered me personally and my professional career. I am applying as an ESSR councillor in order to continue to contribute to this great organisation from the councillor position on a broader range of topics from a Dutch and European perspective. The ESSR has grown steadily since I first joined. In my opinion, sharing information, clear communication, collaboration and involving as many members as possible is the best way for ESSR to flourish even more. After my experience as examiner for the ESSR diploma, I have an understanding of which MSK topics members find difficult and challenging, and as a councillor I hope to contribute to education and dissemination of undertaught knowledge through various tasks in the board. I believe I can be a positive addition to the Executive Committee by bringing in my experience. Furthermore, in collaboration with the national societies, I see opportunities to attract more medical students and residents into the field of musculoskeletal radiology.

On a personal note: In the Netherlands, musculoskeletal radiology is a recognized subspecialty. The Dutch MSK Society, a section within the Dutch Radiological Society, was established in 2007. I am honoured that the Dutch MSK Society is supporting my candidacy as ESSR Councillor 2021-2023.

Supporting signatures have already been submitted to the ESSR office by M Rutten, MD, PhD (president of the Dutch MSK Society), professor F Vanhoenacker, MD, PhD, and professor C Martinoli, MD, PhD.

Sincerely yours,

Miraude Adriaensen

Attachment: brief personal resume

Miraude Adriaensen, MD, PhD, MSc, EDiMSK based in Heerlen is a consultant radiologist at the department of medical imaging, Zuyderland Medical Center, the Netherlands, since 2009. After receiving her MSc in Health Services Research and her master's degree in medicine with best grades both in the summer of 2000, Miraude spent a year as research fellow at MGH (Massachusetts General Hospital) in Boston, USA, and was appointed as a member of the professional staff of MGH and as a Harvard Officer at Harvard University. Upon receiving her MD degree with best grades at the Erasmus University Rotterdam, the Netherlands, in 2003, she started her residency in radiology at the University Medical Center Utrecht, the Netherlands, in

February 2004. From January 2007 onwards, she was trained at the Meander Medical Center in Amersfoort, the Netherlands. In 2008, she registered as a radiologist and she was the first Dutch resident in radiology to receive a visiting scholarship offered by the European School of Radiology. In 2010, she received the diploma of the European Society of Musculoskeletal Radiology. In 2011, she completed her PhD thesis at the University of Utrecht, the Netherlands. Since 2012, she is registered as epidemiologist (highest level) at the SMBWO (Foundation for Biomedical Scientific Research Training), the Netherlands, and she became the chief educator in musculoskeletal radiology at Zuyderland Medical Center (2012-2017).

Dr. Adriaensen was a member of the ESR Leadership Institute (2014-2017).

Research activities include numerous publications, as well as mentoring PhD candidates.
