Musculoskeletal Imaging
Zuyderland Medisch Centrum,
Sittard/Heerlen, The Netherlands

After following this course the participant will be able to perform routine musculoskeletal ultrasound examinations of the various joints. The participant will become familiar with normal ultrasound anatomy as well as ultrasound appearance of clinically relevant pathologies.

The limited number of participants per teacher allows a tailored approach to each participants needs. There is ample hands-on training and time to practice more difficult structures depending on experience.

MONDAY

Arrival at Johannesburg airport before 09:00.
09:00-12:30 Transfer to Entabeni by luxury coach
12:30-13:00 Registration, Welcome
